### CERTIFICATIONS

- The complete 2024 Web development bootcamp | Udemy
- Mastering Next.js with typescript | Code with Mosh

## PROJECTS

### RELIEF WEB APP- DESIGNER/DEVELOPER

Html, CSS, Tailwind, JavaScript, React.js, MongoDB, Prisma.io Next.js, GSAP

- Developed a web application that a Disaster Relief team could use to address the need for efficient volunteer management, enabling profile creation and admin management of volunteer status and contact information.
- Implemented robust authentication and authorization tailored for both admin and volunteer roles.
- Utilized React.js, Next.js, and TypeScript for front-end development, and Prisma and MongoDB for scalable back-end solutions.
- Ensured cross-platform and browser compatibility through thorough debugging and testing, adhering to standard coding practices.

### LEATHER WEBSITE- DESIGNER/DEVELOPER

Html, CSS, Tailwind, JavaScript, React.js, Next.js, GSAP

- Developed a website for Davinch Leather Company to address the need for a strong online presence, showcasing custom leather goods with robust front-end functionalities.
- Highlighted the bespoke crafting process on a dedicated page, with additional about and contact sections to facilitate customer engagement.
- Solved the challenge of providing an engaging and responsive user experience by leveraging Tailwind and React, integrating interactive and user-friendly features.
- Enhanced accessibility and SEO using Google Lighthouse, ensuring the site met high standards and was easily discoverable.

### DEVELOPER PORTFOLIO- DESIGNER/DEVELOPER

Html, CSS, Tailwind, JavaScript, React.js, Next.js, GSAP

- Developed a comprehensive portfolio website to address the need for showcasing my skills and strengths as a Web Developer.
- Leveraged React.js and Next.js to design and implement an intuitive, responsive user interface, adhering to best practices in web design.
- Demonstrated strong problem-solving skills and attention to detail throughout the development process.
- Highlighted proficiency in a variety of languages and frameworks through the portfolio.

### AI CHATBOT- DESIGNER/DEVELOPER

Html, CSS, Tailwind, JavaScript, React.js, Next.js, OpenAI

- Developed an AI-powered Dungeon Master Chatbot, designed to enhance immersive storytelling in Dungeons & Dragons.
- Equipped with deep knowledge of game rules and lore, the chatbot crafts engaging narratives and facilitates interactive gameplay.
- Offers players a seamless and captivating experience in adventure and fantasy realms.
- Integrated with OpenAI API using Next.js for efficient server-side rendering.
