

Innovative Developer with a strong passion for developing user-friendly interfaces. Experienced in both front-end and back-end development with collaborative problem solving and development. Primed to make meaningful contributions to internal and client-facing projects.

Technical Skills

- HTML
- Javascript
- Tailwind
- Git & Github
- Responsive Design & Accessibility Standards
- CSS
- Bootstrap
- MERN Stack (MongoDB, Express.js, React.js, Node.js)
- Postman & Restful APIs
- Next.js

Projects

Leather Website: <https://davinchleatherco.com/>

Developed a high-visibility website to market and showcase custom leather goods for Davinch Leather Company, implementing both front-end and back-end functionalities. The website features a page which describes the bespoke process and how the artisan crafts each custom piece. Additional pages include an about and contact page to reach the craftsman. The website uses responsive design principles, leveraging front-end technologies such as Tailwind and React. Implemented user-friendly and interactive features, enhancing user experience while ensuring clean, scalable, and efficient code. Utilized Google Lighthouse to implement and improve web accessibility standards and SEO optimization. Maintained standard coding practices, continuously learning and applying new programming skills and technologies.

- **Role:** Designer & Developer
- **Technologies Used:** HTML, CSS, Tailwind, Javascript, React.js, Next.js, GSAP

Disaster Relief Application: <https://new-relief-app.vercel.app/>

Developed a high-visibility web application for a Disaster Relief team, enabling volunteers to create profiles and allowing admin users to manage volunteer status and personal contact information for deployment. The application focused on robust authentication and authorization functionalities tailored for both administrative and volunteer user roles. Utilized front-end technologies, including React.js, Next.js and Typescript, and back-end solutions like Prisma and MongoDB, to ensure a responsive and scalable design. Debugged and tested code to ensure compatibility across multiple platforms and browsers, adhering to standard coding practices.

- **Role:** Designer & Developer
- **Technologies Used:** HTML, CSS, Tailwind, Typescript, React.js, Next.js, Prisma, MongoDB, GSAP

Developer Portfolio: <https://www.jeremydev.codes/>

Developed a comprehensive portfolio website to highlight my work, skills, and strengths as a Full Stack Engineer. Leveraging a multitude of languages and frameworks, this portfolio demonstrates my proficiency in both front-end (React.js & Next.js). Designed and implemented an intuitive and responsive user interface, adhering to best practices in web design and showcasing strong problem-solving skills and attention to detail.

- **Role:** Designer & Developer
- **Technologies Used:** HTML, CSS, Tailwind, Javascript, React.js, Next.js, GSAP

Experience

Hillsborough County Fire Rescue – FIREFIGHTER & PARAMEDIC

2019 - Present

Tampa, FL

Collaborated seamlessly with multidisciplinary teams, including firefighters, medical personnel, and law enforcement, during high-stress emergency situations. Demonstrated the ability to quickly adapt and work effectively within a team, delegating tasks and performing under pressure to ensure optimal outcomes. These experiences have honed my problem-solving skills,

adaptability, and ability to contribute to high-stakes projects, making me well-suited for fast-paced, rapidly changing environments in the tech industry.

- Respond to emergency incidents and provide critical patient care, demonstrate adaptability and quick decision-making skills.
- Utilized technology such as medical equipment and various communication devices to deliver efficient and secure services to the community.
- Maintained updated and proficient with current protocols and procedures to guarantee patients receive the highest level of care in accordance with county guidelines and policies.
- Fostered a positive team environment and demonstrated a sharp eye for detail in high-pressure situations.

Tampa Bay Outfitters - CUSTOMER SERVICE ASSOCIATE

2016 -

2021

Tampa, FL

Provided exceptional customer service as part of a collaborative sales team, demonstrating strong communication skills and teamwork. Trained new employees in various aspects including sales transactions, inventory management, and product knowledge, ensuring they were well-equipped to handle their roles effectively. Continuously acquired in-depth knowledge of all product and gear specifications to offer customers the best solutions for their needs. These experiences have honed my ability to quickly learn and apply new information, adapt to changing environments, and contribute effectively to team-based projects

- Enhanced customer experience through retail recommendations and problem solving skills, contributed to increased sales and positive customer reviews.
- Collaborated with fellow team members to streamline operations, enhance store efficiency, accomplish daily tasks and foster open communication to promote a team-based environment.
- Leveraged Microsoft Excel for data management and inventory tracking.

Harbour Island Athletic Club & Spa - Front Desk Hospitality Associate

2014 - 2016

Tampa, FL

Delivered exceptional customer service by greeting clients and building positive relationships with club and staff members while efficiently managing front desk duties. Responsibilities included answering calls, scheduling appointments, and resolving member issues with polite professionalism. These experiences have strengthened my communication skills.

- Managed front desk operation, including appointment scheduling and customer inquiries utilizing organizational and multitasking skills.
- Adapted quickly to new software systems for scheduling and payment processing, quickly adapted and proficient in software systems.
- Fostered positive client relationships through exceptional service.

United States Air Force – SECURITY FORCES GROUND COMBAT SPECIALIST

2008 - 2013

Moody Air Force Base, GA

Achieved advanced qualifications as a Security Forces Fire Team member in one of the Air Force's premier base defense units, specializing in ground combat, precision marksmanship, and heavy weapon systems. Played a critical role in safeguarding 16,000 personnel and over \$20 billion in resources during deployment to Joint Base Balad, Iraq. Further demonstrated leadership and strategic oversight by providing overwatch security for an Anti-Terrorism Unit at Bagram, Afghanistan. These high-pressure roles have cultivated my ability to adapt quickly, solve complex problems, and work effectively within a team.

- Led as Fire Team Leader for over a year which entailed training new airmen on mounted and dismounted tactics for deployment mission protocol.
- Utilized various technological equipment devices for communication and surveillance, ensured effective coordination and response to security threats.
- Collaborated with the Office of Special Investigators to gather intelligence and provide security in routine operations.
